[PORTFOLIO](#)

[DIGITAL FABRICATION](#)
[JOURNEY IN AALTO FABLAB](#)

ABOUT ME

Focuses on interaction design and tangible interfaces. Have experience in programming, digital fabrication, and PCB design during the process of creating artwork and designing teaching materials. Interested in observing the interaction among physical machines, digital interfaces, and humans.

SKILLS

- TouchDesigner
- HTML/CSS/JS
- Processing
- Laser cutting
- Arduino
- 3D printing
- PCB design

WORKING EXPERIENCE

THESIS/DISSERTATION STUDY-BASED ASSISTANT

National Taiwan Normal University / Feb,2019- Jul,2019

- Project name: Mechatronics and extended teaching materials of robotic arm design
- Designing a [robotic arm DIY kit](#) and related courses to teach STEM knowledge.
- Assisting to hold robotic arm competitions and workshops for high school students.

RESEARCH ASSISTANT

National Taiwan Normal University / Sep,2019- Mar,2020

- Project name: Learning Analytics of Game-Based Learning for the Computational Thinking of Interdisciplinary and the Application of Artificial Intelligence
- Developing [teaching materials for AI education](#) for elementary and high schools.
- Assisting in teaching experiments about AI education research.

GRAPHIC DESIGNER INTERN

AmazingTalker Limited / May,2021- Aug,2021

- Doing market research about the audiences' preference for visual materials.
- Designing visual materials for the advertisement based on the research result.

STUDENT HELPER

Aalto University FabLab / Aug,2022- Jun,2023

- Doing introduction of a laser cutter, FDM 3D printers, and SRM-20 milling machine for the students.
- Helping to solve technical parts of students' projects.

EDUCATION

BACHELOR OF TECHNOLOGY APPLICATION AND HUMAN RESOURCE DEVELOPMENT

National Taiwan Normal University / 2016-2019

- GPA: 4.07/4.3
- The degree of Bachelor of Engineering

MASTER PROGRAMME IN NEW MEDIA

Aalto University / 2021- Present

- New media design and production programme
- Creative coding and interactive installation.
